

WEEK 3 AT MILL CAMP WONDER

Challenge:
to find the most rectangles, squares and triangles in Christian's shirt.

Can you guess our wormy pattern?

Things We Wonder About

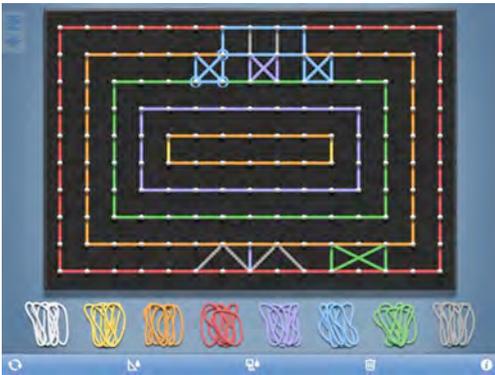

How many triangles, rectangles and squares are in Christian's shirt?
What can be created at the Lego 20 Challenge? How many noodles is our pool is all the way around?
What is the pool temperature?
What makes 12? How many baskets can Sergio shoot before the end of camp? Can you guess my mystery number in my movie? How far can I jump? How much is my candy from the Camp Wonder Store?...

Dustin made a # line to 20. You can count out 20 Lego pieces and then design a Lego 20 Challenge Build on!

Who wants to try my Lego 20 Challenge?

Donea uses the geoboard app and then Show Me to explain her thinking.

On twitter we have shared our pool temperatures and measurements with Prince Edward Camp. We are also posing and solving math inquiries with our new camper friends. Check out twitter @cobrasLS

We are learning interesting **Robust Words** that help us

make sense and form connections to our learning **trio**

pose & solve symmetry grouping

blog alliteration greedy

pentagon polygon quadrilateral triple

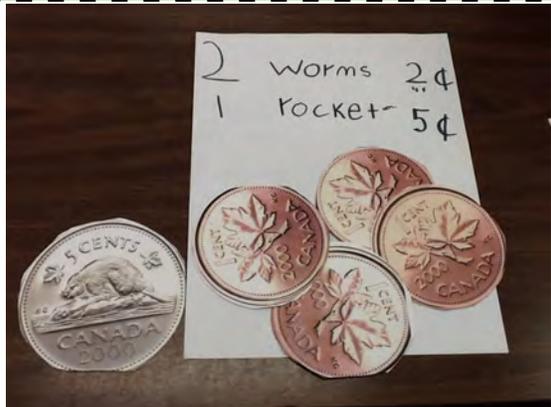

centimetre tally challenge

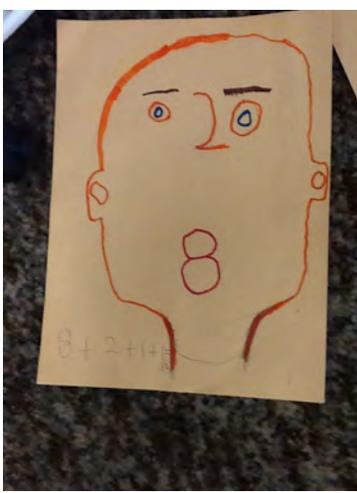

What shapes do you see?

We are exploring 2-D & 3-D shapes, quadrilaterals, polygons, vertices, symmetry & shapes in shapes

At our store you plan a menu, record the cost, add up your total and then go get the coins you will need. Happy Shopping Campers!

Our # Faces add up using strategies inspired by Walter Was Worried

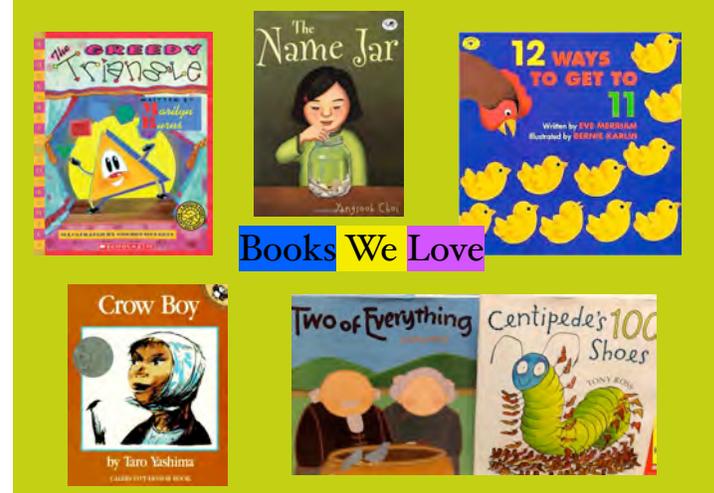

Strategies we used are: grouping, counting on, biggest number first, doubles, using 100 charts, number lines, counters and zero facts to find out our totals

Books We Love

How do you like my crescent happy breakfast smile?

The Tech Tent is always busy as we explore concepts & create new strategies using iPads and apps like Show Me, kidblog, geoboards & Lego movie

Books We Love

Check out Logan's Number Puppet Mystery movie on our blog at kidblog.org/MillMathCamp/

Please join us at Camp Wonder for a Family Breakfast on Friday, July 18th. We are welcoming all our families to experience a morning at Camp Wonder starting with breakfast at 9:00. The health unit is coming in the morning to share in the learning and show us some healthy drink alternatives for the summer. Then we will work together on a math scavenger hunt and show you all our exciting math strategies, games, camp blog, twitter inquiries and Show Me's. (Due to popular demand, we are keeping our Camp Wonder store open too!) Sure hope you can come.

Parachute Fun at the Sherk
